

Introducing a new ETFO resource

Possibilities: Addressing Poverty in Elementary Schools

- An overview of poverty in Ontario and Canada;
- Rethinking challenges, assumptions, and biases around poverty issues;
- Practical strategies to address the academic and non-academic needs of students;
- First-hand examples of school based innovations and initiatives from ETFO's Poverty and Education project;
- Creative educational approaches for engaging children, families, and communities experiencing poverty;
- Changing mindsets through professional development;
- Literature links for classroom learning in primary, junior, intermediate, and French language classrooms;
- Community resources and advocacy groups; and
- Challenging deficit-based thinking towards children and school communities experiencing poverty.

Packed with strategies to help students living in challenging circumstances. Relevant for all grade levels.
