The Institute for Education Leadership (IEL) brings together representatives from the principals’ associations, the supervisory officers’ associations, councils of directors of education and the Ministry of Education in a unique collaborative partnership. It advances and advocates for tri-level leadership (school, district and system). Its main objective is to assist school and system leaders in maximizing the achievement of all students.

The IEL has articulated four key goals: development, research, practice and communication. Development includes defining leadership, identifying the necessary leadership practices and personal leadership resources (see the Ontario Leadership Framework) and staying on the leading edge of leadership knowledge and practice. The IEL supports research on effective leadership practices both in the Ontario context and internationally. It connects leadership practice to initiatives that support student achievement and well being.

To learn more about the work of the IEL and to access resources including the Leadership Self-Assessment Tools, go to http://www.education-leadership-ontario.ca/home.shtml.

As part of its work on research into practice the IEL has adopted the Ontario Leadership Framework (OLF) and continues to support and promote it as a powerful vehicle for strengthening school and system-level leadership in the province. This Leadership Self-Assessment Tool is another resource school and system leaders may choose to use to inform their professional practice.
Purpose
The purpose of the Self Assessment Tool for School Leaders is to enable practicing school leaders to assess their practices with reference to those identified in the research that are required to lead schools in the province of Ontario. Using the practices identified in the Ontario Leadership Framework (OLF), the approach is evidence-based, giving school leaders the opportunity to reflect upon and cite evidence of the experiences that have contributed to their leadership development. Using this self-assessment as a starting point, school leaders can identify areas for growth as leaders and can give further thought and planning to the development of their Annual Growth Plan. The purpose of this tool is to help to develop reflective practitioners who can lead schools towards achieving the three provincial education priorities of: high levels of student achievement; reduced gaps in student achievement; and increased public confidence in publicly funded education.

Context
The Board Leadership Development Strategy (BLDS) requires that boards develop a plan to assist leaders in continuing their professional growth. Supports such as mentoring for newly appointed school leaders, principal and vice principal performance appraisal, and opportunities for professional learning need to be developed as part of this plan. School leaders need a clear understanding of their present level of leadership development as well as direction in ongoing leadership growth efforts. The revised Self Assessment Tool for School Leaders was developed to give school leaders the opportunity to reflect upon their leadership practices and personal leadership resources in relation to the impact these have on the learning conditions in their school.

Development
The Self Assessment Tool for School Leaders is based on The Ontario Leadership Framework. The self assessment of personal leadership resources is based on research by Ken Leithwood and is designed to assist leaders in recognizing the personal characteristics associated with cognitive, social and psychological resources. These resources have been found to help enact the leadership practices more successfully.
Implementation Tips

Growth and Development
The self assessment tool can be used:
- To highlight a leadership practice and reflect on how you as a leader implement that practice.
- For personal self-reflection to help identify areas of growth for inclusion in the Annual Growth Plan (AGP).
- To work with a critical friend or mentor to help identify and/or analyse the:
  ✓ Quality of the evidence.
  ✓ Areas of growth in the Annual Growth Plan.
  ✓ Impact the evidence had on achieving the school’s vision and improvement goals.
  ✓ Next levels of learning for personal growth and development – i.e., the identification of leadership practices and personal leadership resources to develop.

Professional Development
Use the self assessment tool:
- To assist families of schools determine strengths and needs.
- To guide conversations between mentors and mentees and to collaboratively determine areas for further development.
- To help analyse case studies and to determine steps required to address issues and concerns.
- To assist those who have used the tool to network with others who have used it.

Leadership Development
The tool was purposely designed to reflect the current reality of the school leader’s varied leadership roles and responsibilities. The practices identified in the OLF are based on research by leading experts and consultation with educators across Ontario. The framework includes key practices of successful leaders. As such, the self assessment tool could be used to:
- Develop leadership programs.
- Prepare for the promotion process and related interviews or activities.
- Assist supervisory officers with the development of authentic and relevant interview questions as part of recruitment and selection processes.
