Greater Equity Means Greater Student Success

In *Achieving Excellence: A Renewed Vision for Education in Ontario*, the ministry outlined its goals for education, including "Ensuring Equity." By ensuring equity, "All children and students will be inspired to reach their full potential, with access to rich learning experiences that begin at birth and continue into adulthood."

Ontario's Equity and Inclusive Education Strategy, first launched in 2009, aims to help educators across the province better identify and remove discriminatory biases and systemic barriers to support the achievement and well-being of all students. These barriers — related to racism, sexism, homophobia and other forms of discrimination — may prevent some students from reaching their full potential.
